Product Information Sheet

Sectioned HGV Diesel Engine (4-Cylinder) Trainer

This trainer provides the instructor with a fully sectioned 4cylinder truck diesel engine for group or whole-class demonstration.

The trainer is mounted on a self-contained steel frame and base plate, complete with castors. The engine is operated by hand and is sectioned so that all moving components can be seen and the way they interact can be observed.

This resource is supplied with a manual containing practical tasks and activities.

The trainer can also be used in conjunction with our optional cloud-based software, which offers online interactive theory presentations, investigations, and assessments, which support the practical activities, carried out using this resource.

The Exposed Components Include:

- Cylinders
- Pistons
- Cylinder head and valves
- Diesel injection system
- Cooling system
- Oil system
- Alternator

Items Included:

- Trainer
- Practical Activity Manual

Other Items Required:

Automotive workshop tools

Order Code: 779-01
